

## **DREISSENID MUSSELS**

### **1. OR Inspection station cites successes (October 16, 2012)**

If keeping 54 boats infected with everything from quagga and zebra mussels to nasty Eurasian milfoil from entering Oregon means success, H.C., then that's a bona fide yes from the state's invasive species detection crews.....

### **2. Don't Move a Mussel 2011 HD and Promo Available**

PSMFC has created new HD files for the video "Don't Move a Mussel 2011". In addition, a 60 second promo has also been developed (work performed by Videoland Productions, Lacey, WA)

### **2. Researchers Think Salmon Recovery Must Weigh "Native" Invader Impacts, As Well As Invasive Species (October 12, 2012)**

So-called "invasive" or "nonnative" species – plants and animals that cause disruptions in the natural way of things when introduced to a new environment - have policy makers and scientists struggling for answers.....

### **3. New EPA grant will help develop early detection technology for high-risk invasive species (10/2/12)**

The University of Notre Dame has received a \$599,931 Environmental Protection Agency grant under the Great Lakes Restoration Initiative to develop technologies for the early detection of invasive species using environmental DNA.....

### **4. Columbia River red algae could counter global warming effects (10/17/12)**

ASTORIA -- They appear suddenly in mid- to late summer, flushed by tides into the mouth of the Columbia River. Soaking up the warm sun, they multiply like crazy. Sometimes crimson, sometimes the deep red of a hearty cabernet, they paint dramatic swirls of color in the estuary between Oregon and Washington.....

## MEETINGS

### 1. [International Didymo Conference](#)

March 12-13, 2013 in Providence, Rhode Island. Abstracts for all papers and posters must be received by **November 1 2012**.

### 2. [National Invasive Species Awareness Week March 3 – 8, 2013](#)

Please mark your calendars for events in Washington, DC and around the country. State, federal and local and tribal officials meet with NGO's, industry and stakeholder groups addressing invasive species to examine laws, policies and creative approaches to prevent and reduce invasive species threats to our health, economy, environment and natural resources including special places.

**[3. November 14-15, 2012: Aquatic Nuisance Species Task Force](#)** is having a meeting at the U.S. Fish and Wildlife Service building, room 530, in Arlington, VA.

**[4. The Invasive Species Centre is hosting the 18th International Conference on Aquatic Invasive Species, April 21-25, 2013 at the Sheraton-on-the-Falls Hotel in Niagara Falls, Ontario, Canada.](#)**
